Confetti Cares

If we ever fail to put a smile on your face for any reason, please speak with the manager, fill out a comment card, or visit ConfettiCares.com to tell us why.

Nutrition our deli meats and chicken are lower-sodium and 100% natural with no artificial ingredients, no MSG, no preservatives and no added nitrates or nitrites. our sauces and dressings are all natural and organic. our dairy products come from a local farm co-op that uses no artificial hormones (rBST) or unnecessary antibiotics. we have eliminated all trans-fats and high fructose corn syrup from everything except the soda fountain (we're still working on that!).

Community join the conversation on Facebook, Yelp!, and UrbanSpoon. see what others are saying about us. become a fan. write a review. share your thoughts and your experience with everyone else in the Confetti Community.

we have supported the Foodbank since before we first opened and look forward to sharing a larger portion of our sales and our time as we continue to grow in the future.

Sustainability as a Virginia Green certified facility, we have been recognized for our efforts to minimize our impact on the environment. our takeout containers are made of bamboo and sugar cane. we recommend ceramic instead of paper for our guests who are dining in. we support our local family farmers whenever possible. our espresso beans are shipped directly from two carefully selected sustainable farms in Brazil to our local roaster to our caffè.
